## 2015 SIGN LANGUAGE CAMP NEWSLETTER

Monday: Monday morning we learned the ASL alphabet, numbers, colors, introductory phrases, and our favorite animal signs. We signed our own "All about Me" segment for a DVD. We learned that we sign with our dominant hand, and we learned some Deaf attention getting techniques. Finally we learned to introduce ourselves. After lunch we went to the beach where we practiced

Tuesday was a blast! After reviewing the alphabet, color, and animal signs, we went to a great petting zoo where we learned more animal signs and spent time petting all kinds of animals. We each got to milk a goat! After the petting zoo, we went to a park to eat lunch and then off to frolic in the sun and sand at Troll Beach in Stoughton, WI. There were many different slides and water activities and the weather was great! Today we learned the sign for "tired."

Wednesday, we started the day reviewing our sign language and learning weather signs. We also learned the days of the week and time signs. We played ABC Bingo and Sign Language Bingo to practice what we've learned so far. After lunch we spent another day swimming at the Mill Pond.

Thursday was an awesome day as we learned about food signs. We reviewed the fingerspelling list from the fingerspelling lotto game. We saw some ASL videos to review our vocabulary signs. During the afternoon, we went to Sunset swimming pool in Elkhorn.

Our last day was all about numbers, sports signs. We played ASLingo game. We watched the land before time video translated in American Sign Language by Linda Bove. Thank you for sending your child to WSD Sign Language Camp.
